

MORE MUSIC FROM MAY TO AUGUST! Weekend Sessions

By now, Brisbane is well aware that the place to spend your weekends if you love music is the *Weekend Sessions* at Brisbane Powerhouse, our ever revolving and constantly evolving program of FREE music across the entire weekend, no matter what your taste. The year so far has been a ripper and **May to August** promises even more.

Thanks to BrisPop, *The Residents* are going to keep you rocking right through until August with one amazing band or artist after another each month. **Skinny Jean** is our resident band for May, bringing their boisterous yet introspective brand of post-punk/post-rock songwriting to the Turbine Platform. Lining up after that, for a month's worth of gigs each, are the inimitable **Tara Simmons**, **PJ Weston** and the always dashing **Gentle Ben and His Sensitive Side**.

If you want to feel like you've gotten out of Brisbane and had a holiday somewhere exotic, look no further than *Planet*. From Latin to Reggae, Indian to African, *Planet*, will transport your musical senses literally to another world.

Waxing Lyrical has a stellar line-up heading our way over the next few months, ready to share their stories and their talent. Highlights include **Glenn Thompson** and **Dave McCormack** from *Custard*, **Roz Pappalardo**, stepping out from her usual role as host to share her music and **Remy Boccalatte** of *The Paper & the Plane*.

If cool grooves are more your style you'll be happy to hear that *Turbine Jazz*, co-presented with Jazz Queensland, have some hot line-ups in store with **Kristin Berardi** and **James Sherlock** in July and **Ingrid James** in August.

QUT Creative Industries will be sending more of their most talented students our way when *Popalicious* sweetens up the Turbine Platform once more, featuring **Nuvo**, **Ball Park Music** and with the July Popalicious featuring artists from QUT's **Generate** program.

And if Sundays are your thing, you can't go wrong with Brisbane's favourite free music and comedy mix, **Livespark** and **Livewired**. Kicking off with some of this country's best up and coming Indie-Pop at 3.30pm and heading into the evening with a few laughs from 6.30pm, some of the highlights ahead include **Regurgitator**, **Last Dinosaurs** and **Tripod** on **Sunday 16 May**.

Join in on the best weekend plans in town!
